3. [redacted] observed that the schedule does not call for satellite launches between 24 January and 5 March and noted that as a result of the gap, some discontinuity of coverage could ensue. [redacted] observed that the schedule was established as shown to save missions for improved weather and light conditions which will occur beginning in March. KH-4 [redacted] missions consequently will take advantage of these conditions during March, April, and May.

Operational Briefing--Aircraft (BLACK SHIELD and TACKLE) [REDACTED] I/T NRO 25X1

25X1A 4. [REDACTED] reported aircraft activities as of 4 January as follows: BLACK SHIELD Mission BX6842 was flown over North Vietnam on 4 January 1968. The pilot reported clear skies in the target area. The exposed film is presently being forwarded for processing and interpretation. BLACK SHIELD Mission BX6843 and IDEALIST/TACKLE Mission C018C have been alerted for 5 January 1968. The latter will be flown offshore in the Shanghai area.

Operational Briefing--Aircraft (GLASS LAMP) (S)

25X1A 5. [REDACTED] reported GLASS LAMP activities for the period 22 December 1967-4 January 1968 as follows:

<u>Date</u>	<u>Mission No.</u>	<u>Remarks</u>	<u>NIMA</u>
22 Dec 67	G003	No photography [REDACTED]	25X1D

56-day reporting period ended on 24 Dec 67

No GLASS LAMP missions were flown during the period 23 Dec 67-1 Jan 68

2 Jan 68	G004	Successful, 13.1% coverage
3 Jan 68	Not scheduled	
4 Jan 68	Not scheduled

IDEALIST/TACKLE

25X1A

25X1A 6. [REDACTED] reported for the 56-day period beginning 9 November 11 missions were flown over Cuba and provided 84 per cent coverage of the area. During this period 183 of the 187 targets in Cuba were covered completely on cloud-free photography.

25X1A 7. [REDACTED] advised the Committee that the last attempt to acquire very high resolution oblique coverage of installations by the H-Camera had, like previous attempts, proven unsuccessful. The requirement is still unsatisfied; but since there seems to be little likelihood of obtaining satisfactory coverage until summer when sun angle will be more appropriate it appears prudent to send the H-Camera back to the Far East. COMIREX agreed with this conclusion.

Operational Briefing--Aircraft (FOOD FAIR) (TS)

25X1A 8. [REDACTED] reported FOOD FAIR activities 22 December 1967 through 4 January 1968 as follows:

<u>Date</u>	<u>Mission No.</u>	<u>Area/Target</u>
22 Dec-3 Jan 68	No missions	
4 Jan 68	5 T1/5 T50	U/I Electronics Installation

Operational Briefing--Drone

25X1 9. [REDACTED] reported BUMBLE BUG activities for the period 22 December 1967 through 4 January 1968 as follows:

<u>Date</u>	<u>Mission No.</u>	<u>Targets/Areas</u>	<u>Remarks</u>
22 Dec 67	Q409 Q639	NVN NVN/So China	Did not return Down; destroyed in woods

Photo Reconnaissance Coverage of South China and North Vietnam (T-KH)

25X1A

10. [redacted] reported photographic coverage of South China and North Vietnam covering two principal intelligence problems:

a. Coverage of lines of communications (LOC) pertinent to the introduction of Chinese forces into North Vietnam (see COMOR-D-25/207, 4 March 1966).

b. Coverage of North Vietnam to detect the possible introduction or deployment of offensive missile systems (see COMOR-D-25/220, 23 May 1967 and COMIREX-D-25.3/2, 20 November 1967).

25X1B

11. The number of LOC priority targets in South China and North Vietnam remains at 178. During the period [redacted] baseline coverage was reported obtained on the Shang Chuan Shan Island Naval Facility [redacted] and two ground force installations at Hai Kang [redacted] and Po Shang (7A 1793). Surveillance coverage was also reported on 28 priority targets in South China and 13 in North Vietnam. In the [redacted] there was surveillance coverage reported of Man Nai Army Barracks [redacted] and Shuang Chiang Army Barracks [redacted] in South China. The targets covered by baseline/surveillance coverage are identified by underlining in Tab A.

25X1
NRO

12. The two BLACK SHIELD missions, flown [redacted] covered all the priority targets through which offensive missiles or associated equipment could be introduced into North Vietnam, except for the Lao Cai Railroad Classification Yard [redacted]. Approximately 90% of the total area was covered and nothing of [redacted] missile significance was observed.

25X1A

Section V (Status of Recent COMIREX Papers and Activities)Consideration of Surveillance Requirement

25X1A

1. [redacted] informed COMIREX that subsequent to USIB directing the Committee to revise the surveillance requirement with a target date of mid or late January there has been correspondence originated by the Bureau of the Budget proposing that a special study group look [redacted] scheduling and make recommendations as to required purchase levels for the next few years. The reply sent to BoB pointed out that COMIREX is currently engaged in establishing a [redacted] requirement which, when complete, will meet BoB's needs. [redacted] observed that the Bureau of the Budget interest emphasizes that the COMIREX response must be timely and must be a good job. As a means of getting started, the Chairman has met with Messrs. [redacted] and [redacted] and has established a task team composed of [redacted] and [redacted] that is charged with establishing target categories and assigning appropriate targets to the categories. Meanwhile, [redacted] is using the existing categories and targets as a basis for applying statistical techniques to come up with an initial approximation of a new requirement. It is contemplated the principals will reconvene for review on 5 January. [redacted] reported that DIA would support the preparation of a target base but pointed out that the DIA approach has been to choose specific installations within categories for surveillance. Consequently, the analysts participating were concerned with the validity of a technique which takes samples of samples. In response to a question from [redacted] regarding a target date for completing the requirement, [redacted] said if the USIB deadline of late January is to be met, COMIREX must conclude its work on or about 18 January.

25X1D
25X1A25X1A
25X1A

25X1A

Consideration of Warning/Indications Task Force Report

25X1A

2. [redacted] stated that in view of COMIREX's prior discussions and of the NRO analysis of the new target list the Indications paper could now be sent to the USIB Secretariat with

25X1A

COMIREX-M-22

25X1

the request that it be scheduled for Board consideration in mid-February. He felt that this schedule should permit adequate time for COMIREX members to complete the staffing within their agencies. [redacted] both indicated that staffing within DoD and CIA was not yet complete and that consequently they would have to reserve a position but did not foresee serious problems with the study. In response to a question from [redacted] as to whether the study set forth a hard and fast requirement [redacted] commented that all things being equal a requirement has been established as desirable but not one to be satisfied without regard to cost. Thus, NRO is to accept the study as setting forth parameters desirable in a reconnaissance system but it is not expected to begin system development until after reporting back to USIB details of costs and timeliness considerations.

NIMA
25X1
25X1A

25X1A

3. [redacted] observed that DIA is concerned about the impact of a system capable of meeting indications/warning needs on the exploitation community. He felt that during the staffing process NPIC should concurrently study the impact of such a capability in terms of processing, readout, and reporting. [redacted] reported that NPIC had made some attempts to do this but felt that these efforts were abortive in absence of further system definition by the NRO.

25X1A

25X1A

25X1A

25X1A

[redacted] agreed that system definition is not complete but felt that there were enough parameters contained in the task force report to enable NPIC to arrive at correct ball park judgments. The Chairman agreed with [redacted] that NPIC should lose no time in beginning on its study and suggested that [redacted] work with [redacted] in drawing up broad assumptions on which to base a preliminary estimate.
